INOVA® BOLT® 2A

With a perfect balance of size and performance, the INOVA Bolt® 2A is the ideal hand-held LED flashlight. Down to the last detail, this flashlight was made to withstand the harsh irregularities of rough environments. Its aerospace-grade aluminum body has a comfortable non-slip rubber grip, and is geometrically designed to prevent rolling. Its patented optical system and precision machined aluminum reflector with thermal management interface provides a focused spot with flood beam pattern that projects light up to 314 feet. Powered by 2-AA alkaline batteries, the Bolt 2A is a brilliant addition to every toolbox, from the professional outdoorsman, to the hobbyist do-it-yourselfer.

AA POWERED LED FLASHLIGHT
MAX OUTPUT
107 LUMENS

FEATURES:

- High-Powered, Energy-Efficient Lifetime LED
